SAUDI FELLOWSHIP TRAINING PROGRAM MUSCULOSKELETAL RADIOLOGY

Final Examination

Written Examination:

Exam Format:

A Saudi fellowship final written examination shall consist of one paper with 80-120 single best answer Multiple Choice Questions (MCQs). Up to 10% unscored MSQs can be added for calibration purposes.

Passing Score:

The passing score is 70%. However, if the percentage of candidates passing the examination before final approval is less than 70%, the passing score must be lowered by one mark at a time aiming at achieving 70% passing rate or 65% passing score whichever comes first. Under no circumstances can the passing score be reduced below 65%.

Note:

This list is intended for use as a study aid only. SCFHS does not intend the list to imply endorsement of these specific references, nor are the exam questions necessarily taken solely from these sources.

Final Written Exam Blueprint Outlines:

| No. | Sections | Percentage |
|-----|--|------------|
| 1 | Sport (Shoulder, Elbow, Wrist, Hip, Knee, Ankle Small Joints) | 34% |
| 2 | Tumors (Benign Soft Tissue, Malignant Soft Tissue, Benign Bone Malignant Bone) | 24% |
| 3 | Metabolic / Systemic | 16% |
| 4 | Anatomy /Infection/Interventional | 13% |
| 5 | Inflammatory / Arthritis | 7% |
| 6 | Dysplasia/ Spine | 6% |
| | 100% | |

Notes:

- Blueprint distributions of the examination may differ up to +/-5% in each section.
- Percentages and content are subject to change at any time.
 See the SCFHS website for the most up-to-date information.
- Research, Ethics, Professionalism, and Patient Safety are incorporated within various domains.
- Results will be published within 14 business days following the last date of your examination.

Clinical Examination:

Exam Format:

The final clinical examination shall consist of 4 graded stations, each with 15-minute encounters. You will encounter 1-2 examiners in each station.

Station Information:

- The 4 stations consist of 4 Structured Oral Exam (SOE) stations.
- All stations shall be designed to assess integrated clinical/practical encounters.
- Domains and sections may overlap, and more than one section and domain can be evaluated within a station.
- Each station may address one or more cases or scenarios.
- SOE stations are designed with preset questions and ideal answers.
- A scoring rubric for post-encounter questions is also set in advance (if applicable).

Time Management:

- The examiner is aware of how much material needs to be covered per station, and it is their responsibility to manage the time accordingly.
- The examiner will want to give you every opportunity to address all the questions within the station.
- They may indicate that "in the interest of time, you will need to move to the next question." This type of comment has no bearing on your performance. It is simply an effort to ensure that you complete the station. If you are unclear about something during the station, ask the examiner to clarify.
- Some stations may finish early if this occurs, the examiner will end the encounter.

Examiners Professionalism:

- The examiners have been instructed to interact with you professionally –
 don't be put off if they are not as warm and friendly towards you as usual.
- We recognize this is a stressful situation, and the examiner is aware that you are nervous. If you need a moment to collect your thoughts before responding, indicate this to the examiner.
- The nomination of examiners is based on the principle that candidates are assessed by qualified examiners selected and appointed by SCFHS. The examiner is not obligated by any means to share their personal information or professional details with the candidate.

Conflicts:

- The examiners come from across the country. You will likely recognize some of them and may have worked with some of them in your center's clinical/academic capacity. This is completely acceptable to the SCFHS and is not a conflict unless you or the examiner perceive it as such (i.e., if the examiner had a substantial contribution to your training or evaluation, or if you have another personal relationship with the examiner).
- Identify the conflict at the moment of introduction; examiners have been instructed to do the same. Examiners will alert the SCFHS staff every attempt will be made to find a suitable replacement for the station.

Confidentiality:

- Electronic devices are NOT permitted.
- Communication with other candidates during the evaluation is prohibited.

Final Clinical Exam Blueprint Outlines:

| The clinical examination is designed to address more or less of the following: | | | |
|--|---|--|--|
| No. | Sections | | |
| 1 | Sport (Shoulder, Elbow, Wrist, Hip, Knee, Ankle Small Joints) | | |
| 2 | Tumors (Benign Soft Tissue, Malignant Soft Tissue, Benign Bone Malignant Bone) | | |
| 3 | Metabolic / Systemic | | |
| 4 | Anatomy /Infection/Interventional | | |
| 5 | Inflammatory / Arthritis | | |
| 6 | Dysplasia/ Spine | | |

| Definition of Clinical/Practical Skill Domains | | | |
|--|---------------------------------|--|--|
| No. | Domains | Definition | |
| 1 | Data-Gathering Skills | The candidates' ability to obtain and identify important information, correlate the clinical data to recommend appropriate testing. It includes interviewing and history taking. | |
| 2 | Reasoning And Analytical Skills | The candidates' ability to rationalize recommended effective management plans, evaluate alternative plans, recognize indicators to different appropriate treatments based on relevant, correct clinical data interpterion. | |
| 3 | Decision-Making Skills | The candidates' ability to formulate a logical diagnosis, identify immediate needs, and make accurate inferences regarding the expected outcomes. It includes recognizing potential complications, risks, and benefits. | |
| 3 | Professional Attitude | The commitment to deliver the highest standards of ethical and professional behavior in all aspects of health practice. Attitudes, knowledge, and skills based on clinical and/or medical administrative competence, ethics, societal, and legal duties resulting in the wise application of behavior that demonstrate a commitment to excellence, respect, integrity, accountability, and altruism (e.g., selfawareness, reflection, life-long learning, scholarly habits, and physician health for sustainable practice). | |
