## Saudi Commission for Health Specialties

### SCFHS Rescoring Process

If you have failed any of Saudi Commission for Health Specialties Examinations (SCFHS), you can request to have your exam rescored.

Rescoring your examination is unlikely to change your result, as your results are verified at least two times before they are sent to you. Any “borderline” results (i.e., close to the passing score) undergo additional reviews. However, if you still wish to have your examination rescored, you will need to follow the steps below within two weeks of announcing the results.

#### **Process of requesting examination rescore:**

- a) A candidate wishing to request examination rescoring must apply via SCFHS official website by filling out a rescore request form within two weeks of announcing the results.
- b) The Candidate Affairs Administration shall acknowledge your request by accepting or rejecting the request before proceeding to payment within 10 business days.
- c) An administration fee is required to be paid by the candidate initiating the request.
- d) A request for rescoring that does not include the required administration fee within **48 hours of accepting your request shall not** be processed or considered.
- e) After receiving your rescoring request and paying the required fee, the SCFHS will retrieve your data and rescore your examination.
- f) Rescoring **does not** involve subject matter experts **nor** re-evaluation of performance by any mean.
- g) SCfHS is not in charge of any recurrent fees paid by the candidate for the same request nor in charge to refund the recurrent fees.

#### **When rescoring your examination, the SCFHS:**

- Verifies your examination data and confirms it as being yours
- Checks your examination data to confirm it is complete and that there are no errors in data capturing.
- Calculates your examination scores manually at least two times.
- Verifies your results against the results obtained through the computerized/manual scoring procedure.
- Checks your results against those contained in the results announced.
- Issues a letter confirming the rescoring has been completed and informing you of the outcome.

#### **There are three possible outcomes for the rescoring process:**

- No change in score.
- Change in score but no change in final result.
- Change in score plus a change from fail to pass.
